\*\* Other Revenue refers to funds that the program reports as being used to run the program that are not CNCS share or match.

NOTE: Some applicants are receiving “fixed amount grants” which do not require reporting on matching funds.

### Program Summary

Minnesota Alliance With Youth AmeriCorps members will implement a data-driven, evidence-based model to address and impact early warning indicators of high school drop-out: attendance, work completion, and disengagement. At the end of the first program year, the AmeriCorps members will be responsible for launching 4,200 students in grades 6-10 on a trajectory toward high school completion. Of these students, 3,000 will demonstrate an increase in their academic engagement as evidenced by improvements in school attendance, homework completion or reported engagement with school. In addition, the AmeriCorps members will leverage an additional 200 volunteers who will engage in tutoring, informal mentoring, and support for service-learning for students at risk of not graduating. This program will focus on the CNCS focus area of Education.
